

YOU ARE INVITED TO A

KANE COUNTY RECYCLING PRESENTATION

Come meet the Speaker: Jennifer Jarland, Kane County Recycling Coordinator

Rethink, Reduce, Reuse, Recycle!

Get the lowdown on what you should be recycling at home and at work. Jennifer will cover what can and cannot go in your curbside recycling cart, the 2018 sea change in the recycling industry, and the state-wide work being done on reducing contamination in recycling streams. She will also share top recycling tips that answer the most commonly asked questions.

Learn about where you can recycle other items at drop-off locations throughout Kane County: Styrofoam, electronics, books, hazardous waste, batteries, paint, and more.

Get the 2018-2019 schedule of Recycling Events, and all of the things you can take to them, including the free confidential document shredding dates.

This session will include a slide presentation, time for questions and answers and some fun giveaways, including the Kane County Recycles Green Guide.

Date: Wednesday, October 10th, 2018
Time: 2pm - 3pm
Location: Kane County Government Center, Ground floor Auditorium
719 S. Batavia Ave., Geneva, IL 60134
RSVP: Space is limited. Please RSVP to recycle@countyofkane.org
This program is FREE and refreshments will be served.
Questions: 630-208-3841; www.countyofkane.org/recycling

Jennifer Jarland has been the Recycling Program Coordinator for Kane County since 2011. Her work includes managing the electronics recycling sites, conducting recycling collection events, household hazardous waste program management, and public outreach. While managing, improving, and expanding recycling programs for Kane County, she also works with fellow Illinois County and agency colleagues on broader state issues, such as food scrap composting, electronics recycling, and a task force for recycling contamination reduction. She is currently serves as the Chairman of the Board of the Illinois Food Scrap Coalition and as secretary on the Board of the Illinois Counties Solid Waste Management Association.

A student of life, Jennifer enjoys making art out of found objects, growing an organic food garden in her back yard in Chicago and also exploring the surrounding urban jungle with friends.
