## **Exhibit B – Ride in Kane REPORT(S) DESCRIPTION**

The following is a list and brief description of each category of reports which have been designed and are being produced to generate data for the Ride in Kane project.

1. **Detailed Funding Source (Sponsor) Report**

The intent of this report is to produce a detailed listing of one-way trips delivered for each Ride in Kane funding sources (sponsor) for a user specified period of time. The normal report period would be monthly, but the report is intended to have the flexibility to produce data for shorter or longer periods as specified by the user.

The report is intended to match the design and content, as closely as possible, of the Detailed Provider Report. Data provided for each trip will include associated trip data such as rider name, scheduled pick-up time, actual pick-up time, point of origin address, destination address, funding sources (sponsors), total cost of the trip, fare for the trip, distance of the trip, revenue hours (if applicable). The exact content of the report in its final form may vary depending on the feasibility of including the large amount of data specified in one report. It is possible that the report may be broken into one or more additional reports to make the data more manageable for the user.

Plans call for the report to be sorted by provider, funding source, rider, and fare type.

2. **Monthly Source (Sponsor) Invoice Report**

The intent of this report is to produce one or more summary reports of trips delivered for each funding sources (sponsor) for the purposes of generating an invoice type report which may be used to bill funding sources for transportation provided. The normal report period would be monthly, but the report is intended to have the flexibility to produce data for shorter or longer periods specified by the user.

Data provided for each trip will include associated trip data necessary to provide an accounting of the amount owed by each funding source for the specified period, such as the number of one-way trips by Fare Type, total cost of the trips, total expected fare, and liquidated damages deducted, the total net reimbursement. The exact content of the report in its final form may vary depending on Pace and provider needs. The report may be broken into one or more additional reports if that design is more useful.

Plans call for the report to be sorted by provider, funding source, fare type, and rider.

3. **Missed Trip Report**

The Missed Trip Report is intended to produce a list of all trips picked up 61 or more minutes after the scheduled time; the Ride in Kane service guideline defining a missed trip. Sufficient detail will be provided to identify the trip within Trapeze and to give the report user the necessary information for review.

4. **On-Time Performance Report**

The On-Time Performance Report (late pickups) is intended to produce a list of all trips picked up 16 or more minutes late, the Ride in Kane service guideline defining a late trip. Sufficient detail will be provided to identify the trip within Trapeze and to give the report user the necessary information for review.

5. **Other Reports**

In addition to the reports described above, reports currently generated can also be made available. Reports currently available include:

**Ridership by Category Report** – A summary report by funding source indicating trips by fare type, late trips, missed trips, revenue hours, denials, and miles.

**Client Trip List Report** - A detailed listing alphabetically by rider last name of all trips provided during the specified period. Data included for each trip is rider name, pick-up address, drop-off address, fare type, and funding sources.

**Customer Feedback Report** – A summary of issues reported by consumers including sponsor, provider, issue, status.

**Ride in Kane Comparison** - A summary comparing prior two years data including trip count, registrations, gross cost per trip average, sponsor cost per trip average, trip mileage, and ADA trips.

**Future Needs** – Additionally reports may be designed as needed by Pace, Ride in Kane Sponsors, and with the input of the AID Paratransit Coordinating Council.
